

# SERIES 2200

Smart. Robust. Profitable.

## WHY SERIES 2200?

- Commercial grade design & construction
- Strength & durability for special event pros
- Strong and fast “lay-flat” webbed lace lines
- Engineered to ASCE 7-05 90mph
- Easy to clean vinyl coated webbing

## PRODUCT OVERVIEW

The Series 2200 tension tent is smartly designed and constructed to achieve maximum long-term profitability. Passionately built by the world’s best tent craftsmen, the Series 2200 leaves no detail overlooked. The Series 2200 tension tent will provide exceptional event space while ensuring that the elements stay outside. Commercial grade toughness means the Series 2200 will withstand the test of time.

The Series 2200 is designed to be compatible with Century® Tents offered by Evansville, Indiana based Anchor Industries. Whether you need to replace an entire top or a single mid section, the Series 2200 offers you a choice, without confusion. With added benefits like vinyl-coated structural webbing that sheds dirt and cleans easily, there is no reason to limit yourself.

## ENGINEERING

System engineered to ASCE 7-05 90mph (3 Second Gust) Exposure “C”
