

TRADITIONAL FRAME

Proven. Interchangeable. Commercial Grade.

WHY TRADITIONAL FRAME?

- Commercial Grade Materials
- Engineered
- Durable
- Traditional Styling

PRODUCT OVERVIEW

Aztec Tents' Traditional Frame tent is designed and constructed to achieve profitability. Passionately crafted by the world's best tent craftsmen, Aztec's Traditional Frame tent is best in class. The Traditional Frame tent will provide optimal temporary event space while ensuring that the elements stay outside. Commercial grade toughness means Aztec's Traditional Frame tent will withstand the test of time.

Aztec Tents' Traditional Frame tent is a staple within the rental industry. Based upon the "West Coast frame system", most frame components are interchangeable between different sizes. One piece frame tents are

fixed sizes and the "expandable" design allows for modular expansion from the standard square size to any required length. Sectional tops are attached at the seams with a lace or clasp system and a weather resistance hook and loop storm flap.

ENGINEERING

20' Wide | 8' Leg | 10' Bay | ASCE 7-10 105 MPH
30' Wide | 8' Leg | 10' Bay | ASCE 7-10 65 MPH
30' Wide | 8' Leg | 15' Bay | ASCE 7-10 50 MPH
40' Wide | 8' Leg | 10' Bay | ASCE 7-10 40 MPH
