

SERIES 1200

A great CHOICE in high peak pole tents

WHY SERIES 1200?

- 100% Guaranteed Compatible Plus
- Sweeping high peaks
- Excellent return on investment (ROI)
- 30x/40x Engineered to ASCE 7-05 90mph
- Easy to clean coated webbing

PRODUCT OVERVIEW

The Series 1200 tension tent is smartly designed and constructed to achieve maximum long-term profitability. Passionately built by the world's best tent craftsmen, the Series 1200 will provide exceptional event space while ensuring that the elements stay outside. Commercial grade toughness means the Series 1200 will withstand the test of time.

The Series 1200 is one of Aztec's proven Compatible Plus product lines designed to offer existing tent users flexibility and choices when replacing their tent tops.

The Series 1200 is compatible with the Century Mate™ brand of pole tents offered by Evansville, IN based Anchor Industries.

Whether you need to replace an entire top, add hardware parts, or simply add one mid section to your current inventory, you are guaranteed to have more options and choices with the Series 1200 and the Compatible Plus lineup.

ENGINEERING

System engineered to ASCE 7-05 90 mph (3 Second Gust) Exposure "C" (When used with upgraded heavy duty pole system)
